Analytic ability to come the core of problem, strong organizational skills that help me meet deadlines readiness work both as a team member individually. I have theoretical and practical knowledge in Information system technologies.

I worked on some projects(I did most of if in React) and You can see my work in this <https://stefan-joncic-cv.netlify.app/> :)

Work experience

Frontend Developer

Brame R&D, Nis

Apr 2023 - May 2024

Worked on project written in React. It's custom CMS project where user is enabled to create multiple different templates and customize them with drag and drop functionality and styling customisation. Beside React project is build with Material UI, Redux and styled components.

Software Developer

United Group B.V., Belgrade

Dec 2021 - Jun 2022

Worked on a project written in Angular2+. Project represents web portal for user of cable provider (SBB). Beside Angular, I have worked with Material Angular, SCSS, RxJS.

Progamer

Globos osiguranje, Belgrade

Jul 2021 - Nov 2021

I have worked on internal projects written in .NET Core. One part of frontend code was done in Angular and other part in vanilla JS. Aside from different types of data manipulation inside the application I had to display data retrieved from database in Word documents and in Excel sheets.

Software Developer

OXOftware d.o.o., Belgrade

Nov 2019 - Jan 2020

I worked on implementation of software solutions and services for financial sector.

Frontend Developer

Freelance

Mar 2018 - Mar 2021

Worked on various web sites, mostly work with HTML, SCSS, JS and React.

- Create a static website using HTML, CSS and Bootstrap
- Worked on SPA using React and SCSS. Simple application with the main focus on styling and responsive behavior
- Created a SPA using React, Redux and SCSS. The application was created as a portal for employees to enable them easier tracking of the business inside postal service (tracking parcels and letters within districts). Used MaterialUI for several components and layout within the application
- Develope eCommerce web site in Shopify
